

**FEATURES**

- Low-pressure in-line filter
- Rigid construction
- Stainless Steel mesh filter
- Die cast aluminum (anodized) housing and plastic cap
- No tools required for cleaning
- Ports for bypass hose and gauge

**SPECIFICATIONS**

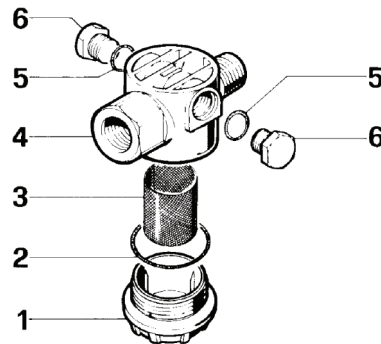

|                      |                                     |
|----------------------|-------------------------------------|
| Part Number          | ZMFIL                               |
| Maximum Volume       | 5.8 GPM                             |
| Maximum Pressure     | 145 PSI                             |
| Temperature          | 176°F                               |
| Port Sizes: Inlet    | 1/2-14 BSP-F                        |
| Outlet (to pump)     | 1/2-14 BSP-M                        |
| Accessory (2)        | 1/4-19 BSP-F                        |
| Filter Opening       | 40 mesh - 0.15"                     |
| Micron Filter Rating | 350 micron                          |
| Dimensions           | 2.25" x 3.25"                       |
| Weight               | .4 lb.                              |
| Material             | Aluminum, Brass, Plastic,<br>Buna-N |

**INSTALLATION**

**PARTS LIST**

| No. | Part No. | Description          | Qty. |
|-----|----------|----------------------|------|
| 1   | 10016651 | Cap                  | 1    |
| 2   | 90387100 | O-ring, 1.362 x .103 | 1    |
| 3   | 10016776 | Filter               | 1    |
| 4   | 10016522 | Body                 | 1    |
| 5   | 90358500 | O-ring, .426 x .070  | 2    |
| 6   | 98204100 | Plug                 | 2    |

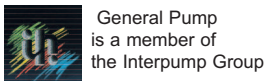

**CHEMICAL FILTER**

Features rigid construction, plastic housing and mesh filter, brass hose barb fitting. No tool required for cleaning. Available with or without stainless steel check.

**SPECIFICATIONS**

|                |   |
|----------------|---|
| Part Number    | ZF1, w/o check valve, Red<br>ZF2, with check valve, Green |
| Dimensions     | 1" x 3.25"  |
| Hose Barb Size | Use 1/4" I.D. Hose  |
| Material       | Plastic, Brass Viton, Stainless Steel                     |
